

# 1994 Kewanee 300 HP Firetube boiler

One (1) remanufactured 300 horsepower Kewanee firetube package boiler originally constructed in 1994 in strict accordance with the ASME Code, Section I for a design pressure of 150 PSI steam and bears National Board stampings. The boiler is capable of producing 10,350 PPH and is equipped with a Kewanee "Phoenix" natural gas and #2 oil fired forced draft burner complete with Honeywell flame management control system.

Valving trim and ancillary equipment includes, but is not limited to the following;

Water columns with primary and secondary low water cut off, pump control and low water alarms, gauge glass, gauge cocks and drain valves.

Safety, Blowdown, Modulating Feedwater with stop and check valves.

Forced draft fan with 10 HP TEFC motor and starter.

Honeywell 7800 series diagnostic burner management system, including expanded annunciator, relays, indicating

Lights, Limits and Alarm horn and oil metering pump and air pump.

Single point 480volt-power connection with 120volt-control transformer.

Fuel valving and controls meeting IRI, FM standards

## Connections:

Steam: 6" 300# flange  
Water: 1 1/2"  
Gas: 2"  
Blow Down: 2"  
Electric: 480v 3ph 60 Hz.

## Dimensions:

Length: 17' 6"  
Width: 8' 6"  
Height: 8' 11"  
Shipping Weight: 20,200 lbs.

This unit is located at our Louisville, KY facility and is available for shipment within 1-2 weeks from date of receipt of the down payment. This boiler is offered for sale with a one (1) year parts and motors warranty.
